In our ecology webs, arrows point to the consumer of the energy.

Example 1: A bear consumes (eats) salmon to live/grow.
Example 2: A tree consumes (uses) sunlight to live/grow.

Add the arrows to complete the mini ecology web below.

Garter Snake (Thamnophus siralis), Redtailed Hawk (Buteo jamaicensis), Western Meadowlark (Sturnella neglecta), Red-legged Grasshopper(Melanoplus femurrubrum), Blue Wildrye (Elymus glaucus), and Sun
